**Subject:** Economic Analysis of 8 and 0.8, etc.

Amanda,

In follow up to our conversation the other day, I thought you had mentioned that you had completed an economic analysis of what it would cost facilities (the big 7) to achieve 8 mg/L TN and 0.8 mg/L TP and the second tier (6 mg/L TN; 0.6 mg/L TP). Would you mind emailing that information to me and Jeff when you have a minute?

Thanks!

Tina
